REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The Applicant has amended claim 1 to incorporate the features of claim 2.

Hence, the prior art fails to disclose that the outer end of a generally horizontal rail section has a recess in an upper side thereof on a horizontal rail that is part of a guard for mounting onto a frame of a motorcycle, wherein a foot peg fits into the recess in its stowed position and overlies at least a portion of the horizontal rail section.

Claim 3 has been amended to incorporate the features of claim 1 and is now an independent claim. Hence, the prior art fails to disclose a foot peg to be pivoted substantially 180 degrees to a stowed position overlying at least a portion of the rail section of the engine guard and a second frame section joined to and extending upwardly from the inner end of the generally horizontal rail section adjacent to the frame and adapted to be secured to the frame.

Claim 4 has been amended to incorporate the features of claim 1 and is now an independent claim. Hence, the prior art fails to disclose a foot peg to be pivoted substantially 180 degrees to a stowed position overlying at least a portion of the rail section of the engine guard and a strut having an upwardly extending outer portion that supports the pivot bracket and the outer end of the horizontal rail section and the strut at an inner end supportable on a lower portion of the motorcycle frame.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
